Artaissance Artist, Doug Landreth Makes a Splash at the 2008 WCAF Show

Las Vegas (February 2008) – At this year’s West Coast Art and Frame show Artaissance gave their retailers a chance to meet one of the top Artaissance artists, Doug Landreth.

Landreth brought along three of his most popular Artaissance pieces to sign and give away to guests throughout the event. While there, visitors were able to visit with Landreth and learn about his unique technique, artistic vision and much more!

Artaissance CEO and chief curator, Steve McKenzie, stopped by to learn more about Landreth’s work. “We are thrilled to have artist Doug Landreth here visiting us today; our guests have been delighted to have the opportunity to meet him and get an autographed piece of his work. His skills and technique are unlike anything I’ve ever seen. We’re so proud that Doug Landreth is a part of our Artaissance repertoire,” stated McKenzie.

Artaissance currently features 57 images by Doug Landreth. As a west coast native, Landreth draws inspiration from the natural beauty surrounding him. His photographs reveal a deeper emotion through the layers and special inks he uses to enhance his images. Doug Landreth has the distinctive ability to make simple images from nature appear more complex and extraordinary.
