FOR IMMEDIATE RELEASE

Artaissance Introduces Elementary School Students to Careers in Art

Atlanta (April, 2008) – Artaissance was honored to host a field trip for Margaret Fain Elementary School, to introduce students to potential careers in art.

The field trip took place at Artaissance's 18,000 square foot facility in Atlanta. Visitors were able to tour the building and experience the Artaissance process. Students learned about graphic designing, color correcting, the image capturing process and how high quality art is reproduced on both, canvas and paper.

The students watched as their own artwork was being reproduced through the Artaissance system and were able to take home their very own Artaissance artwork. Many of the visiting students are a part of a dance group, which performs throughout the Southeast. So, to thank the Artaissance team, the talented students performed a dance.

Artaissance continues to support the art efforts of Margaret Fain Elementary School through donations of time and supplies.
